AL-KO JOCKEY WHEEL RANGE

AL-KO JOCKEY WHEELS ARE DESIGNED FOR STABILITY, DURABILITY, EASE OF OPERATION AND LONG SERVICE LIFE.

They are available in a variety of models, with a range of innovative features to suit your personal caravanning needs.

AL-KO Jockey Wheels are recommended for use with the New AL-KO AMS Mammut Caravan Manoeuvring System.

THE AL-KO JOCKEY WHEEL RANGE FEATURES AND BENEFITS

All AL-KO Jockey Wheels are hot dipped galvanised, preventing corrosion and maximising service life. The entire range incorporate a specially designed 'thrust bearing' which greatly reduces the effort required to manoeuvre the caravan.

THRUST BEARING

and low friction crank ensures smooth and easy operation

HIGH QUALITY CORROSION PROTECTION

with durable, hot dip galvanised finish ensures that a clamping device does not wear on the jockey wheel.

MANOEUVRING HANDLE

Invaluable as a manoeuvring aid, this solid handle is ideal for easier and quicker movement of your caravan. It also helps to prevent loss of the jockey wheel through the clamp in transit, should it be insufficiently tightened.

The manoeuvring handle can be retrofitted to all 48mm diameter jockey wheels.
